# FACULTY-LED PROGRAMS

## CUSTOMIZED PROGRAMS AND FACULTY-LED PROGRAMS

UIR's "Faculty-led Programs" or "Customized Programs" are open to local and/or international universities/colleges, as well as high schools and NGOs. They take place during Spring, Summer and Winter breaks, and allow students to earn credits toward their university/school degree.

Any faculty member interested in leading a Program abroad is welcome to get in touch with UIR's Department of International Relations and Partnerships*, to work out a specific program tailored towards meeting the needs of their students and fulfilling the academic requirements of their respective study programs in their host institutions. The faculty member is entitled to collaborate with their International Office before liaising with UIR's Department of International Relations and Partnerships to help with the logistics for such Faculty-led Programs, as well as drafting a budget, and settle any related arrangements based on the need of the faculty members and their schools.

## UIR FACILITIES AND SERVICES

UIR, originally founded on 66 acres of open green land, features a state-of-the-art campus, providing three buildings with highly equipped classrooms, amphitheaters, administration and faculty offices, and language and computer labs. The campus also hosts several sports facilities, including an indoor heated semi-olympic pool, indoor and outdoor basketball courts, multiple soccer pitches, hand ball and tennis courts, and more. There's also various restaurants on campus, library services, student dorms that offer single and double rooms at competitive prices, a convenience store, free parking, ATM machines, a laundry and even a beauty salon and barber shop. The entire site is populated by beautiful green spaces with hundreds of olive, cyprus and palm trees. The campus is ideally located a 15-min drive from the center of Rabat, Morocco's capital city (about 8 km from Rabat city center), and is 24/7 secure.
